Secssion- 2019-20

Fun with Holiday Homework

Dear Parents,

'Exciting time is here again! It's time for Summer Vacation and fun filled activities.'

Children are power houses of potential which needs to be tapped and channelized in diverse ways. They should be encouraged to develop intellectually and physically. Summer Vacation is the best and fruitful time for learning and for nurturing creativity.

The Holiday Homework designed would not only enhance achievements of your child but would also teach your child to work independently and would improve his/ her basic academic skills, such as reading, writing, and spellings.

Here are a few suggestions that you may keep in mind-

- Let the child do his/her homework. Parents can act as guides & facilitators.
- The homework should be done as per the instructions given. It should be neatly labeled and the name, class, section of the child should be mentioned clearly.
- The last date of submission of holiday H/W is 05 July'18. No homework will be accepted after the last date. The holiday homework will be graded and is a part of Formative assessment of students.
- Converse with your child in English. Encourage your child to read books to enhance his/her language and communicative skills.
- Also encourage your child to play various indoor and outdoor games.

Have Blissful Summer Holidays

English- I-Imagine yourself as any one of the following-

A) a bird B) a squirrel C) a rabbit D) a honey bee E) an ant

Describe your home in few sentences. You can include the following points

- ❖ Name of your shelter. E.g. bird- nests.
- ❖ How and where do you make your shelter?
- ❖ What is special in your home and why you like it?
- ❖ Who all live with you?
- ❖ Which activities do you do there? Draw picture of your shelter

II- Do one page of handwriting in a four line notebook for 2 weeks.

Maths- I- Learn and write tables in your c.w. notebook from 2- 15.

II- Revise the work done in c.w. notebook.

III- Write your scholar number in your c.w. notebook and make the greatest and smallest number from the digits of your scholar number.

Science- Collect seeds of different colours and sizes. E.g. rice (white), pumpkin seeds (yellow), wheat (yellow) , moong (green), masoor (pink), etc. Take a piece of thermocole or cardboard (an art sheet sized) to make the given cartoon character using fevicol.

Make your project attractive and informative by mentioning the importance and properties of the seeds used for making the cartoon in the science activity notebook.

- ✚ **SOCIAL SCIENCE-** i) Make a handicraft of Delhi (this includes big sized beaded jewellery)
